Global Energy Services, LLC

The opinions expressed in our work are based on Global Energy Services' judgement and analysis of key factors expected to affect the outcomes of certain energy markets. However, the actual operation and results of energy markets may differ from those projected. Global Energy Services makes no warranties, expressed or implied, including without limitation, any warranties of merchantability or fitness for a particular purpose, as to reports or other deliverables or associated services. Specifically, but without limitation, Global Energy Services makes no warranty or guarantee regarding the accuracy of any forecasts, estimates, or analyses, or that such work products will be accepted by any legal, financial, or regulatory body.
